

2024 8th International Conference on Intelligent Traffic and Transportation

ICITT is becoming one of the leading international conferences for presenting novel and fundamental advances in the fields of intelligent traffic and transportation. It also serves to foster communication among researchers and practitioners working in a wide variety of scientific areas with a common interest in intelligent traffic and transportation and related techniques. Following the successful ICITTs in past seven years in Zurich in 2017, Stockholm in 2018, Amsterdam in 2019, and virtual mode for 2020 and 2021, hybrid for 2022 in Paris and 2023 in Madrid, the conference will be held in Florence, Italy during September 16-18, 2024. Welcome scholars and researchers working in the field of intelligent traffic and transportation from all over the world to attend the conference and share your experiences and lessons with other enthusiasts, and develop opportunities for cooperation.
